## ELECTRONIC SECURITY SYSTEMS

NetVersant has rapidly gained a leadership position in the electronic security systems integration sector, bringing several unique capabilities to the security industry. With our roots in communications network infrastructure, wireless networking and structured voice/data/video cable system solutions, we bring experience from the networking world at a time when security products are rapidly moving to a network environment. Our experience, combined with extensive, nationwide installation resources, gives NetVersant unparalleled product delivery and project implementation capabilities.

### INTEGRATED SECURITY SOLUTIONS

NetVersant offers a wide range of security products, ranging from small stand-alone solutions to enterprise-level integrated applications. We also incorporate reseller relationships with the security industry's top manufacturers of access control, video surveillance, digital video storage and biometric products. These leading-edge products, coupled with NetVersant's superior integration capabilities, are unique in the electronic security industry.

### PROJECT IMPLEMENTATION

We have implemented a variety of web-based tools that assist with critical areas of project design, implementation and project management services. These tools significantly enhance NetVersant's ability to deliver high-quality, consistent solutions on every project.

### KEY CUSTOMER ADVANTAGES

**National Footprint.** From coast to coast and border to border, NetVersant enjoys a national presence that positions us to respond to your project needs at a single location or on a national basis.

**Project Management.** NetVersant's Project Managers oversee every project from inception through completion, offering one point of contact for open communications between our Company and valued customers.

**Superior Products.** Through our vendor relationships, NetVersant has access to new technologies that benefit our customers with cutting-edge products.

**Training.** NetVersant has four Training Centers at which our professional technicians, the best in the marketplace, receive hands-on training.

### ONE-SOURCE COMPREHENSIVE SOLUTIONS

As a comprehensive solutions provider, NetVersant designs, engineers, installs, services and provides specialized training to meet clients' local, regional and national requirements. Our proven track record includes the implementation of integrated systems ranging from entry-level to highly sophisticated, geographically dispersed models for an extensive range of applications.

NetVersant's electronic security service platform is a fundamental part of our comprehensive service offerings. In the converging world of voice, video and data, NetVersant offers multiple service lines to provide total communications solutions:

- **Electronic Security Systems**
- **Network Infrastructure**
- **Voice Technologies**
- **Telephony**

Under our Network Assurance Process, customers are offered a full range of services within each of NetVersant's core solutions, from business analysis to planning and design, implementation, maintenance and support.
