WIRELESS SERVICES

NetVersant Solutions is uniquely positioned to meet the escalating demand for wireless communications with superior solutions. Whether you are looking to connect multiple devices at a single location or create a wireless network encompassing multiple locations, NetVersant has the technical knowledge, national manpower and industry-leading products you require.

A COMPLETE RANGE OF SERVICES

WIRELESS SITE SURVEYS from NetVersant are in high demand, reflecting our extensive capabilities and the experience of our certified engineers.

- conduct survey, document where equipment should be installed and identify access point locations
- specify the antenna system for maximum coverage
- interact with your project managers to discuss implementation
- provide easy-to-understand detailed survey documentation
- guaranteed coverage
- CAD and VISIO drawing services

COMPUTER NETWORK SERVICES, designed by certified professionals who are acclaimed for their operating systems and protocol knowledge.

- complete network planning and consulting
- LAN, MAN, WAN and WLAN assessments
- network security design and consulting
- firewalls, VPNs and RADIUS solutions
- network implementation and installation

STAGING AND BURN-IN SERVICES ensure that every wireless system is configured and tested before it reaches a customer's project site to minimize customer intervention.

- state-of-the-art staging lab
- extensive services for terminal configuration, burn-in and testing
- equipment inventorying, preconfiguring and testing
- equipment documentation

FIXED WIRELESS encompasses outdoor solutions that offer both high-speed voice and data connectivity.

- building to building (LAN to LAN)
- campus to campus (WAN)
- point to multipoint
- guaranteed reliability engineered with five "9s" (99.999%) reliability

SERVICE AND MAINTENANCE provided by NetVersant's dedicated service teams ensure that every service request is handled by our trained professionals for optimal performance, peak efficiency and 100% reliability.

- customer responsiveness to immediate and scheduled service needs
- service teams across the nation

CABLE PLANT DESIGN AND INSTALLATIONS

are available for every type of wired solution to complement NetVersant's wireless systems.

- complete solution design
- warranted installations
- documentation packages
- the nation's largest collection of BICSI RCDD and RCDD LAN specialists

KEY CUSTOMER ADVANTAGES

National Footprint. From coast to coast and border to border, NetVersant enjoys a national presence that positions us to respond to your project needs at a single location or on a national basis.

Project Management. NetVersant's Project Managers oversee every project from inception through completion, offering one point of contact for open communications with our valued customers.

Vendor Relationships. NetVersant has strong working relationships with the largest wireless manufacturers and has achieved an impressive list of certifications, including:

- Avaya Business Partner
- Cisco Systems Advanced Technology Partner
- Intel Premier Partner
- Western Multiplex
- Symbol Technologies Business Partner

Superior Products. Through our vendor relationships, NetVersant has access to new technologies that benefit our customers with cutting-edge products.

Training. NetVersant has four Training Centers at which our professional technicians, the best in the marketplace, receive hands-on training.

NetVersant's wireless services platform is a fundamental part of our comprehensive service offerings. In the ever-converging world of voice and data, NetVersant offers multiple service lines to provide total communications solutions:

- **Wireless Network Installations**
- **Network Infrastructure**
