

# Network Infrastructure

[www.netversant.com](http://www.netversant.com)

## Industry-leading Solutions, Superior Service

*Outside-the-box solutions are NetVersant's trademark. Whether your company is upgrading existing components or implementing a new system from the ground up, NetVersant has the technical knowledge, resources and access to the industry-leading products you require. Ours is a revolutionary company, and we welcome the opportunity to assist you.*

### Key Customer Advantages

*NetVersant is uniquely positioned to meet the escalating demand for comprehensive and integrated network infrastructure services. Our state-of-the-art solutions, encompassing fiber optics, copper and wireless networks, have propelled NetVersant into an industry-leading position to benefit single- and multi-location customers.*

#### FIBER OPTICS

Whether in the riser or building-to-building, fiber optics has enjoyed skyrocketing popularity tied to the tremendous bandwidth capabilities it offers. Reflecting NetVersant's expertise in this niche, we offer state-of-the-art results and rank among the leaders in riser and building-to-building fiber optic installations for both single mode and multimode.

#### COPPER

With enhanced technologies producing increased bandwidth, copper maintains its position in facilitating users' requirements, and NetVersant offers superior know-how in an extensive range of copper solutions:

- ✓ CAT5e
- ✓ CAT6
- ✓ CAT6e
- ✓ CAT7 and beyond

#### WIRELESS

As companies' customers seek to provide mobility and efficiency for the workforce, the demand for NetVersant's wireless solutions has increased. Whether you are looking to connect multiple devices at a single location or create a wireless network that encompasses multiple locations, NetVersant has the technical knowledge, national scope and access to superior products and technology you require to operate at peak efficiency.

### superior service capabilities

- ✓ State-of-the-art technologies
- ✓ Highest-quality installations
- ✓ Superior knowledge
- ✓ Implementation planning
- ✓ Implement site modeling
- ✓ Outside-the-box turnkey solutions
- ✓ Alignment with current bandwidth requirements
- ✓ Unmatched national footprint
- ✓ An impressive list of national certifications

### we are convergence

*In the ever-converging world of voice, video and data, NetVersant offers multiple service lines to provide total communications solutions.*

- IT Infrastructure Solutions
- Wireless/Mobility Solutions
- VoIP/Telephony Solutions
- Electronic Security Solutions

# key customer advantages

- ✓ NetVersant's experience and depth of knowledge, enhanced by our solution perspective and relationships with the leading manufacturers in structured cabling equipment, uniquely positions us to consult, design, install and maintain best-in-class solutions.
- ✓ From coast to coast and border to border, NetVersant enjoys a national presence that positions us to respond to your project needs at a single location or on a national basis.
- ✓ We are always on the alert for technologies that allow both improved convergence of existing standalone systems and support for emerging technologies.
- ✓ Without question, NetVersant employs the industry's most talented people and we are proud to maintain a staff of industry-certified Registered Communications Distribution Designers (RCDD), engineers, program managers, project managers, lead technicians and technicians across the United States.
- ✓ NetVersant's company-wide commitment to project management utilizes project managers to oversee mission-critical processes, supervise quality installations and offer one point of contact for open communications with our customers.
- ✓ The highest-quality cable and components are used for every solution.
- ✓ Cabling, both exposed and inside the wiring closet, is crafted to be safe and orderly.
- ✓ NetVersant ensures the superior customer satisfaction and unmatched service through computer aided design (CAD), the highest level of testing for cable plants (Level III or greater) and a superior product installations and solution implementations.

## vendor partners

NetVersant has developed strong working relationships with the largest manufacturers and achieved an impressive list of national certifications.

## BICSI certification

The BICSI Prestige Corporate Member (PCM) Program provides a three-tiered structured system —Silver, Gold, Platinum— to highlight companies with BICSI registered professionals on staff. NetVersant has achieved BICSI's top-tier Platinum Status, reflecting the extensive number of accreditations and certifications achieved by our Company and its BICSI Registered Communications Distribution Designers (RCDD), engineers, program managers, project managers, lead technicians and technicians.
