

Strategic Sourcing Solutions

As an innovative provider of technology staffing services we are part of an expanding network that enables us to deliver quality staffing and related solutions locally, regionally, nationally and internationally. With the increasing reliance on highly skilled temporary technical staff, NetVersant Carrier Support Services offers its clients the most focused and effective service possible. We provide telecom professionals for both short and long term assignments.

NetVersant's Engineering Service offerings include contingent staff augmentation of professionals, permanent recruiting and placement, on-site vendor management and project solutions including network design, implementation and management.

- System Installations
- Project Management
- Surveys and Audits
- Site Feasibility Surveys
- Network Operations and Management
- Wireless and Wireline Services
- Distributed Antenna System Support

Support solutions that fit...

...into your business strategy. NetVersant helps leading technology providers compliment existing staff with proven, trusted technology resources.

NetVersant employs a team of experienced professional recruiters to find, develop and place highly skilled resources proficient in Carrier Class Technology. We leverage advanced sourcing tools, industry knowledge and a best-in-class on-boarding process to offer our clients a reliable conduit to the resources they need.

We recognize the importance of our clients resourcing needs and stand ready to provide the highest quality professionals the market has available. Our recruiters are experienced across multiple disciplines and leverage a reliable network built over years of successfully fulfilling our client's technical staffing needs.

- Filling gaps to meet critical dates
- Smoothing workloads across multiple projects
- Acquiring cost-effective technical expertise
- Quickly mobilizing resources with specialized skills
- Engaging a proven provider for long-term needs

A proven track record from a premier service provider ensures confidence that you get results first time, every time.

Connecting people with the information they need to improve their business...

Why Enterprises Choose NetVersant

At NetVersant we *Inspire Technology Solutions*. Our objective isn't to sell you what we have, but instead to design and deliver what you need. That means:

We turn creativity into connectivity. Technology is changing quickly and business is competitive. If you're not creative in leveraging technology to connect people with information, the competition will leave you behind. We don't just sell products; we deliver innovative solutions, managed and professional services.

We customize solutions to fit your business. Our Solution Architects operate on the premise that your solution is unique to your business. We understand the integration between technology and business process and leverage that knowledge to help clients improve profitability and customer relationships.

We deliver exceptional service with passion: A solution isn't complete without a best-in-class support model. Service is not an afterthought or a reactive mechanism to recover, but an integral part of our solutions. It ensures ROI achievement.

In order to Inspire Technology Solutions, we begin by inspiring our employees to embrace innovation, cultivate relationships and possess a relentless passion to help clients succeed. Our goal is to enhance your business and Accelerate Your Success!
