

# In-Building Wireless Solutions

NetVersant helps enterprises accelerate their business by ensuring that their key employees are connected real-time to information, decision makers and customers - anytime, anywhere. Leading Analyst Firms claim that enterprises today estimate that well over half of their employees are mobile workers.

At NetVersant, we offer our clients secure, reliable and cost-effective In-Building Wireless Solutions from industry leaders like Aruba, Cisco and Ruckus.

Our solutions are designed to fit your business and ensure performance – so that you can deliver answers to your customers and decisions are made real-time.

**Our Mobility Solutions Practice includes:**

- In-Building Wireless Solutions
- Distributed Antenna Systems
- Voice, Video and Data over Wi-Fi
- Support for HD video surveillance
- Totally Secure – intrusion detection, prevention and protection
- Seamless outdoor coverage for campus environments
- High speed 802.11n – 300 Mbps
- Maintenance and Support Services

*In-Building Wireless that fits...*

*...into your business strategy. NetVersant's mobile enterprise solutions increase productivity and optimize your mobile environment.*

NetVersant delivers In-Building Wireless Solutions and services that are effective, scalable and most importantly, secure. High performance technology that's simple to use, manage and grow as your business grows.

*Connecting people with the information they need to improve their business...*

### Why Enterprises Choose NetVersant

**At NetVersant we *Inspire Technology Solutions*. Our objective isn't to sell you what we have, but instead to design and deliver what you need. That means:**

***We turn creativity into connectivity.*** Technology is changing quickly and business is competitive. If you're not creative in leveraging technology to connect people with information, the competition will leave you behind. We don't just sell products; we deliver innovative solutions, managed and professional services.

***We customize solutions to fit your business.*** Our Solution Architects operate on the premise that your solution is unique to your business. We understand the integration between technology and business process and leverage that knowledge to help clients improve profitability and customer relationships.

***We deliver exceptional service with passion:*** A solution isn't complete without a best-in-class support model. Service is not an afterthought or a reactive mechanism to recover, but an integral part of our solutions. It ensures ROI achievement.

***In order to Inspire Technology Solutions, we begin by inspiring our employees to embrace innovation, cultivate relationships and possess a relentless passion to help clients succeed. Our goal is to enhance your business and Accelerate Your Success!***
