

Intelligent Cabling Solutions

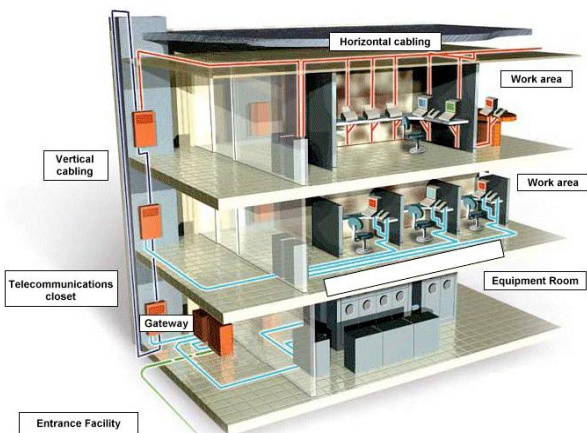

NetVersant is a platinum Level BISC member with an award winning team of RCDD's, Project Managers and seasoned technology professionals. In fact, we are one of the largest privately held network infrastructure providers in the nation and carry national certifications with CommScope and Corning.

Years of experience has resulted in a proven methodology built on stringent design and deployment standards that allows us to offer our clients 20+ year manufacturers' warranties.

Fiber optic and copper cable systems are the pathways that enable communities, government and enterprise networks, touching every facet of our lives.

Network Infrastructure Solutions:

- Planning and Design
- Implementation and Integration
- Data Center Implementations
- Core Network Services
- Switching and Routing
- Maintenance and Support Services

Connectivity solutions that fit...

...into your business strategy. NetVersant's structured cabling systems ensure compliance, reliability and superior performance.

Unlike other "cabling only" service companies, NetVersant's expertise in delivering voice, data and advanced applications brings a unique perspective to connectivity. We don't just run cable; we offer clients intelligent networking solutions.

- National and local deployment capabilities
- Certified technical workforce with regional RCDD's
- Intelligent design that delivers peak performance and ensures scalability
- Standardized interfaces that ensure connectivity
- Advanced tools to mitigate incompatibility risks
- Innovative approaches to redundancy, bandwidth and reliability requirements

A proven track record from a premier service provider ensures confidence that you get results first time, every time.

Connecting people with the information they need to improve their business...

Why Enterprises Choose NetVersant

At NetVersant we *Inspire Technology Solutions*. Our goal isn't to sell you what we have, but instead to design and deliver what you need. That means:

We turn creativity into connectivity. Technology is changing quickly and business is competitive. If you're not creative in leveraging technology to connect people with information, the competition will leave you behind. We don't sell products; we deliver innovative solutions and managed services.

We customize solutions to fit your business. Our Solution Architects operate on the premise that your solution is unique to your business. We understand the integration between technology and business process and leverage that knowledge to help clients improve profitability and customer relationships.

We deliver exceptional service with passion: A solution isn't complete without a best-in-class support model. Service is not an afterthought or a reactive mechanism to recover, but an integral part of our solutions. It ensures ROI achievement.

At NetVersant, in order to Inspire Technology Solutions, we begin by inspiring our employees to embrace innovation, cultivate relationships and possess a relentless passion to help clients succeed.
